

NATURALLY ABUNDANT.

When it is free of dandruff, it grows luxuriantly.

These preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only safe preparation that will positively destroy the germ is Newbro's Hairdo—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It always itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Hairdo Co., Detroit, Mich.

Down On Dishonest Magnates

JUDSON C. CLEMENTS, WHO FAVORS DRASTIC PUNISHMENT FOR DISHONEST RAILROAD MAGNATES.

"ONE of the most wholesome things that could happen would be the putting in jail of some man of prominence in the railroad world. It would do more than anything else to bring about better conditions." Judson C. Clements, who favors this drastic remedy, is a Georgian and has been a member of the Interstate commerce commission for fifteen years. He is a lawyer and a veteran of the Confederate army.

IN CASE OF FIRE.

The Landlord Told His Literary Guest How to Get Out.

In the days before the dawn of his fame it was the practice of a certain well known author to wander up and down the land seeking what he might devour in the way of suggestion and local color. In this way he had drifted into Arkansas; "roughing it," and not, as he expresses it, presenting an appearance calculated to inspire a hotel proprietor with unlimited confidence.

The only hotel in the town, a frame structure, seemed to have been built upon the theory that there was plenty of room straight up, but that ground had to be bought, and the wanderer was shown to a room on the third floor, reached through many narrow and winding passages. From the one window it was a straight drop to the ground.

"Say, how would I get out of this place in case of fire?" he asked the landlord, who had brought up his grip.

"The other eye," he said, "all you would have to do would be to show them night watchman—the one with the shotgun—a receipted bill for your board and lodgin' and get him to tie up the bulldog."—Cleveland Leader.

A Mission That Failed.

The Sire de Joinville tells us in his "Histoire de St. Louis" how a certain Brother Yves of the preaching friars once met while crossing a street in Damascus at the time of the sixth crusade an aged woman who carried in her right hand a bowl of fire and in her left a bottle of water.

"Where are you going?" asked the Brother Yves.

"I go," said she, "to burn up heaven with the fire and put out hell with the water, and so I will make an end of both."

"And for why will you do this?" asked the friar.

"Because," said she, "I would that we did good neither for the joys of heaven nor for the fear of hell pain, but purely for the love of God, who deserves so well of us and who is able to deliver us from evil."

A Memorial Day.

One of the days we remember with pleasure, as well as with profit to our health, is the one on which we became acquainted with Dr. King's New Life Pills, the painless purifiers that cure headache and biliousness, and keep the bowels right. 25c at Frank G. Bland's drug store.

Why Penmen Get Tired.

The average person has no idea how much muscular effort is expended in writing a letter. A rapid penman can write thirty words in a minute. To do this he must draw his pen through the space of sixteen and a half feet. In forty minutes his pen travels a furlong and in five hours a third of a mile. In writing an average word the penman makes in the neighborhood of sixteen curves of the pen. Thus in writing thirty words to the minute his pen would make 480 curves, 24,000 curves an hour and 86,400,000 in a year of 360 days of ten hours each. The man who succeeded in making 1,000,000 marks with a pen in a month was not at all remarkable. Many men make 4,000,000 while merely writing.—Minneapolis Journal.

Cleaning a Sickroom.

Most of us know how untidy a sickroom becomes and how annoying the dust of the sweeping is to the patient. "To remedy this," said a trained and capable nurse, "I put a little ammonia in a pail of warm water and with my mop wrung as dry as possible go all over the carpet first. This takes up all the dust and much of the loose dirt. A broom will take what is too large to adhere to the mop and raise no dust. With my dust cloth well sprinkled I go over the furniture, and the room is fairly clean."

Reason For Heavy Wheels.

Everywhere in the old world the wheels of wagons and carriages are two or three times as heavy as those on corresponding vehicles in America and so appear clumsy and cumbersome to us. The explanation of the difference is that our wheels are made of bickery, a wood unknown abroad, which supplies the requisite strength in smaller mass.—Travel Magazine.

A Matter of Economy.

"You're not so strict with that youngster of yours as you used to be," said Poppley's friend.

"No; for economy's sake I'm not," replied Poppley. "Every month I used to have to buy myself a new pair of slippers and him a new pair of pants."—Exchange.

Suited Him.

You may succeed when others do not believe in you, but never when you do not believe in yourself.

S.S.S. GREATEST OF ALL TONICS

Everyone should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from breathing the impure air of closed rooms and overheated buildings; the heavy, rich foods of the Winter season, etc., and when this vital fluid is aroused and stirred to quicker action by the return of warmer weather, these waste matters and poisons are distributed through the circulation, to act depressingly and injuriously on the system. The blood being in this unnatural and impure condition is unable to furnish the body with the proper amount of nourishment and strength, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation.

The depleted system must have assistance; it needs a tonic and it is important that the proper one be selected. When the health is in this disordered condition it is not safe to take unknown concoctions, sarsaparillas, etc., because they usually contain potash or other strong mineral ingredients which act unfavorably and often dangerously on the run-down, weakened system, at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. A great deal is being said these days about living close to nature, and it is more applicable to medicines, perhaps, than anything else. Nature has provided a remedy for all the ills of mankind, and medicines made from nature's vegetation act better in every way than do the strong mineral mixtures which are the products of the chemist's or apothecary's shop.

The greatest of all tonics is S. S. S. It is made entirely of the roots, herbs and barks of the forests and fields, selected for their purifying and health restoring qualities; and as it does not contain the slightest trace of mineral in any form it is especially adapted for a systemic remedy, one that is absolutely safe for young or old. S. S. S. acts directly on the blood, ridding it of any and all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is enabled to supply to the system the healthful, invigorating energy needed to pass this trying season of the year. Its action is the most prompt, pleasant and satisfactory of all tonics and blood purifiers, and those who are beginning to feel the need of a medicine to fortify the system against the unpleasant conditions that come with Spring, will do well to commence its use at once. It will not only tone up the system, but will remove any taint or humor that may be in the blood and thus prevent an outbreak of Eczema, Tetter, Salt Rheum or other rash or eruption of the skin. S. S. S. restores lost energy, relieves that all worn out, tired feeling, quiets the nerves, helps the appetite and imparts a relish for food, and in every way adds tone and vigor to the entire system, and prepares it for the depressing Summer months that are to follow.

In selecting your tonic for this year do not be led into believing that others are "just as good," but get S. S. S., THE GREATEST OF ALL TONICS, and one that for more than forty years has been recognized as such. It is Nature's tonic, absolutely pure and safe, and reliable in every way. S. S. S. is for sale at all first-class drug stores.
